

This diagram illustrates a mobile application layout. At the top, there is a header area containing a 'Logo' box, a 'Titre' (Title) box, and a 'Menu' box. Below the header is a large central content area with three main components: a large 'Horaires' (Hours) box, a 'Texte' (Text) box, and another 'Titre' (Title) box. At the bottom, there is a 'Contact' box and a final 'Menu' box. The entire layout is enclosed in a rounded rectangle with a simulated status bar at the top and a home indicator at the bottom.
